SELLING PRESSURE IS MUCH STRONGER

Result of Cumulative Effect of Discouragement Over Lack of Prospect of Activity.

EXPECT PERIOD OF DULLNESS

Market Neglected by Speculators, and Immediate Revival Is Not Promised.

NEW YORK, February 8.—There was nothing striking in the news to account for the increase of selling pressure in the stock market. The movement was rather of cumulative effect of the feeling of the discouragement that has grown up during the week as to any prospect for an early revival of a widespread demand for securities such as can only form the proper basis for successful speculative operations.

A considerable period of duliness and neglect of the stock market is the clearly expressed anticipation heard among habitual operators, and voice in the action of the market. There is the apprehension also of possible delay in the revival of industrial and business activity in the country. Sundry items of information which appeared to-day were of a more cheerful complexion on this subject than has been the recent rule, but their purport was ignored in the movement of prices. The complexion of the bank statement, when it appeared after the market closed, was seen to be affected by the preparations of the trust companies for their inclusion this week, for the first time, in the public statement of conditions. Bonds easy; sales, par value, \$1,300,000. United States bonds unchanged on call. Sales, 437,300 shares.

NEW YORK, February 8.—Money on call nominal; time loans steady, but quiet; sixty days, 3% @4, and ninety days, 4; six months, 4½ per cent. Prime mercantile paper, 5% @6 per cent. Sterling exchange easy, with actual business in bankers' bills at \$4.8540@\$4.8315 for sixty-day bills. Commercial bills, \$4.82% @\$4.83. Bar silver, 56%. Mexican dollars, 47.

NEW ORLEANS, LA., February 8.—COTTON-Spots were steady and unchanged:
middling, 11%c. Sales were 1,200 bales on
th' spot and 425 to arrive. Futures opened
quiet, 2 points below the close yesterday
which was about as due on the cables. This
was followed by the active months, casing
off about 5 Points as a result of duliness and
act: of supporting features. Later trading
in futures was in somewhat better volume
plan for several days, the incentive to cover
being furnished by the promised squeeze in
the March and May options in New York.

It is a supported to the effect of creating some
cutivity. It alled, however, in causing any
very notices and advance. At the close,
which was steady, the active months were
fat points above, the active months. (Ins.)

The Quality, However, is Good and Prices Keep Up. BLACKSTONE, VA., February 8.— On account of the unfavorable weather for handling the weed, offerings of loose tobacco have been very light the past week. The quality of that offered has surpassed former offerings of this season, showing that the majority of poorer grades and quality have been disposed of. With this improvement in quality has come an improvement in prices, these ruling higher than heretofore. Bank of Commerce and Trusts,
